

Module Specification

Module Title: Contextual Studies 1 (Jazz)

Module code:	HBAMJA004	NQF level:	Level 4
Credit value:	30 credits	Semester of study:	1 and 2
Applicable pathways:	Jazz	Pre-requisites:	None

Module overview

This team-taught module equips students with the aural, analytical, and transcription skills and key historical and cultural concepts necessary to evaluate and contextualise jazz repertoire. The module is delivered via lectures, workshops and seminars. Topics include: notation and analytical methods; forms and variations; rhythm and poly-rhythm; harmonic pattern and progression; stylistic arrangement; technology and its impact; Through reproducing and creating music (in performance and/or notation), students will be assessed on their practical understanding of jazz rhythm, form, melody, harmony and stylistic detail. Through a combination of written coursework and presentation, students will be assessed on their understanding of jazz repertoire in relation to culture and significant social and historical events.

Aims

This core module forms part of the contextual studies strand of the programme and addresses core musical and academic skills that support the students' specialist study with particular reference to their pathway.

The module aims to:

1. Equip students with the fundamental skills and knowledge essential to the understanding, appreciation and creation of music.
2. Explore, evaluate and apply the core musical skills (associated with relevant repertoire if appropriate).
3. Develop an understanding of repertoire through its social and cultural context.

Learning outcomes

On successful completion of this module, students will be able to:

1. Integrate theory and practice.
2. Identify and evaluate the structural, cultural and social aspects of key repertoire.
3. Apply harmonic and rhythmic conventions.
4. Demonstrate knowledge of repertoire through its social and cultural context, production and reception.

Learning and teaching methods

Lectures: concepts, principles and theories will be explored in formal lectures. They will be relevant to the particular pathway as highlighted in sections 18 and 20. Section 20 reflects how students that have substantial production content can attain technical knowledge through lectures since information is vital in its application within a recording studio environment (i.e. Lectures 40 hours/Seminars 20 hours).

Workshops/seminars: skills are developed in workshops along with cognitive and personal skills in open-ended problem solving exercises by working in small groups supported by members of academic staff.
